

The diagram illustrates the concept of place value using rectangular blocks. It consists of four horizontal rows:

- Row 1:** Ten individual blocks arranged in a single row.
- Row 2:** Five pairs of blocks, where each pair consists of two blocks placed side-by-side.
- Row 3:** Two groups of five blocks each, separated by a gap. Each group consists of five blocks placed side-by-side.
- Row 4:** One group of ten blocks placed side-by-side.
