Следует отметить, что в последние годы в Китае наблюдается тенденция к уменьшению количества субъектов, осуществляющих производство и продажу китайской продукции на территории Китая. Вместо этого, производство и продажа китайской продукции осуществляется через интернет-магазины, расположенные за пределами Китая. Это связано с тем, что интернет-магазины позволяют избежать ограничений на экспорт китайской продукции, а также снижает затраты на транспортировку и хранение продукции.
