

The diagram illustrates the representation of numbers 0 through 9 using different groupings of boxes:

- Row 1:** Shows individual digits. Digits 0-8 are represented by one box each, while digit 9 is represented by two boxes.
- Row 2:** Shows digits grouped into sets of four boxes. Digit 0 uses one set, digit 1 uses two sets, and digits 2-9 each use three sets.
- Row 3:** Shows digits grouped into sets of five boxes. Digit 0 uses one set, digit 1 uses two sets, and digits 2-9 each use three sets.
