

The diagram illustrates the multiplication of two numbers using boxes. The first number is represented by 6 boxes in the top row and 7 boxes in the bottom row, totaling 13. The second number is represented by 8 boxes in the top row and 6 boxes in the bottom row, totaling 14. The third group, representing the product, has 8 boxes in the top row, 4 boxes in the middle row, and 6 boxes in the bottom row, totaling 18. An asterisk is placed between the second and third groups, indicating multiplication.
