и то же время обладающий способностью к восприятию и обработке информации, то есть обладающий способностью к обучению. Важно отметить, что в отличие от традиционных вычислительных машин, способность к обучению не является их основной характеристикой, а является дополнительной, позволяющей им адаптироваться к различным условиям и задачам. Это делает их более универсальными и эффективными в различных приложениях.

Three sets of empty square boxes for drawing.
