A horizontal row of 20 empty rectangular boxes, each with a thin black border, intended for a child to draw a picture in.

Diagram illustrating the subtraction problem: $10 - 8 = 2$. The problem is shown using groups of rectangles. The first group has 2 rectangles. The second group has 7 rectangles. The third group has 6 rectangles. The fourth group has 4 rectangles. Below these are four rows of rectangles: the first row has 10 rectangles, the second row has 8 rectangles, the third row has 9 rectangles, and the fourth row has 5 rectangles. The bottom row is labeled with a minus sign followed by a group of 6 rectangles.

A horizontal sequence of 100 small, identical rectangular blocks arranged in a single row. The blocks are evenly spaced and have a consistent height and width, creating a uniform pattern across the entire row.
