\***SEO** (Search engine optimization) is the process of improving the visibility of a website or a web page in the search engines' unpaid results. It involves optimizing the content, structure, and technical aspects of a website to make it more accessible to search engines and users. SEO is a crucial part of digital marketing, as it helps businesses reach their target audience and increase their online presence. It can be achieved through various techniques, such as keyword research, on-page optimization, link building, and content marketing. SEO is a long-term strategy that requires consistent effort and monitoring to see results.
