

[illegible]

Diagram illustrating the structure of the  $2 \times 2$  block matrix  $\mathbf{A}$ . The matrix is composed of four blocks, each represented by a row of boxes. The first block (top-left) is a  $10 \times 10$  matrix with the 7th column shaded. The second block (top-right) is a  $10 \times 8$  matrix with the 2nd and 6th columns shaded. The third block (bottom-left) is an  $8 \times 10$  matrix with the 2nd and 6th columns shaded. The fourth block (bottom-right) is an  $8 \times 8$  matrix with the 2nd and 6th columns shaded.
