INTERNATIONAL CONFERENCE ON THE PROTECTION OF PERSONAL DATA

The Conference was organized by the Council of Europe under the patronage of the United Nations and the Organisation for Economic Co-operation and Development.

The Conference was held in Strasbourg, France, from 26 September to 6 October 1981. It was the first of a series of conferences organized by the Council of Europe on the protection of personal data.

The Conference was attended by representatives of 31 States and the Council of Europe. The main objective of the Conference was to discuss the need for a common European approach to the protection of personal data.

The Conference produced the Recommendation of the Council of Europe concerning the protection of personal data, which was adopted on 28 September 1981. This Recommendation is the basis for the Convention for the Protection of Individuals with regard to Automatic Processing of Personal Data, which was opened for signature in Strasbourg on 28 January 1985.

The Convention has been ratified by 10 States and the Council of Europe. It is currently open for signature to all States.

The Convention is the only international instrument dealing with the protection of personal data. It is a landmark achievement in the field of human rights.
