The diagram illustrates the subtraction of 14 from 36 using base ten blocks. It consists of three rows of blocks:

- Top Row:** 3 tens rods and 6 units blocks, representing the number 36.
- Middle Row:** 2 tens rods and 16 units blocks, representing the number 26. This row is preceded by a minus sign (-).
- Bottom Row:** 2 tens rods, 2 units blocks, and 14 units blocks, representing the result 22.

The transition from the top row to the middle row shows the exchange of one ten rod for ten units blocks, and the transition to the bottom row shows the removal of one ten rod and four units blocks.
