

A 3x4 grid of rectangles representing a multiplication problem. The grid is composed of 12 rectangles, each representing 100 units. The first row has 8 rectangles, the second row has 4 rectangles, and the third row has 4 rectangles. This represents 800 + 400 + 400 = 1600 units.

[illegible]

The diagram consists of two horizontal rows of rectangular boxes. Each box contains a single digit. In the top row, there are four groups of boxes separated by spaces: a group of 8 boxes, a group of 4 boxes, a group of 3 boxes, and a group of 7 boxes. In the bottom row, there are also four groups of boxes: a group of 8 boxes, a group of 5 boxes, a group of 4 boxes, and a group of 6 boxes.
