

The diagram illustrates the composition of numbers 0 through 9 using rectangular blocks. Each row represents a number, and the blocks are arranged as follows:

- Row 1 (Number 8):** 8 single blocks.
- Row 2 (Number 7):** 7 single blocks.
- Row 3 (Number 6):** 6 single blocks.
- Row 4 (Number 5):** 5 single blocks.

In each row, the single blocks are followed by double blocks, which represent pairs of single units. The total count of single blocks decreases by one in each successive row, while the total count of double blocks increases by one.
