

# THE UNIVERSITY OF THE SOUTH PACIFIC SCHOOL OF DISTANCE EDUCATION BACHELOR OF SCIENCE DEGREE IN ENVIRONMENTAL SCIENCE PROGRAM

The University of the South Pacific (USP) is pleased to announce the opening of the Bachelor of Science Degree in Environmental Science Program. This program is designed to provide students with a comprehensive understanding of environmental science and its applications in various fields.

The program is offered through the School of Distance Education, USP, and is available to students both locally and internationally. The program is a four-year degree program that includes a variety of courses in environmental science, biology, chemistry, and physics.

Students who complete this program will be well-prepared for careers in environmental science, environmental management, environmental education, and environmental policy. The program also provides a strong foundation for students who wish to pursue further studies in environmental science or related fields.

For more information about the Bachelor of Science Degree in Environmental Science Program, please contact the School of Distance Education at USP. We are committed to providing a high-quality education to all our students.
