The diagram illustrates the multiplication of 28 by 13 using base ten blocks. The top row represents 28, with 2 tens rods and 8 units units. The bottom row represents 13, with 1 ten rod and 3 units units. A colon is placed between the two rows. To the right of the colon, there are two groups of base ten blocks: one group with 2 tens rods and 1 unit unit, and another group with 1 ten rod and 6 units units.
