The diagram illustrates the composition of the number 60 using tens rods and unit cubes. In the top row, there are four groups of one cube each (representing 4 ones), five groups of two cubes each (representing 10 tens or 100 ones), three groups of one cube each (representing 3 ones), and six groups of one cube each (representing 6 ones). In the bottom row, there are seven groups of one cube each (representing 7 ones), five groups of two cubes each (representing 10 tens or 100 ones), and four groups of one cube each (representing 4 ones).
