A horizontal row of 20 empty rectangular boxes, likely a template for a survey or form.

A horizontal bar consisting of 20 equal-sized blue squares, representing a sequence of 20 data points or observations.

A horizontal timeline consisting of 24 blue rectangular boxes of equal width, representing time steps. A single red vertical line is drawn across the timeline, positioned approximately in the middle of the 12th box from the left. This visual representation is used to indicate a specific time point or event within a sequence of 24 observations.

A horizontal line of 16 blue squares, with a break in the line after the 8th square. Below the line, there is a short segment consisting of the 9th and 10th squares, followed by a dash and then the 11th and 12th squares.

A horizontal sequence of 25 blue vertical bars of varying heights, representing a digital signal or waveform.
