жизни. Всё это было вчера, а сегодня, в 2015 году, мы можем сказать, что в России впервые за последние 20 лет появился настоящий политический кризис. И это кризис не только политический, это кризис политической культуры, это кризис политической мысли, это кризис политической воли. И это кризис, который неизбежно приведёт к тому, что в России будет создано новое политическое движение, которое будет выступать за демократию, за свободу, за равенство, за социальную справедливость. И это движение будет иметь большое значение для будущего России.
