

INTERNATIONAL TELECOMMUNICATIONS UNION UNION INTERNATIONALE DES TELECOMMUNICATIONS UNION INTERNACIONAL DE TELECOMUNICACIONES

The International Telecommunications Union (ITU) is the United Nations specialized agency for information and communications technologies. It is the largest of the United Nations specialized agencies, with 193 member states. The ITU is responsible for the global coordination of radio-frequency spectrum use and satellite orbits, and for the development of international telecommunication standards to ensure interoperability and compatibility of systems. The ITU also provides technical assistance and training to its member states, and is a leading international organization in the field of information and communications technologies.

The ITU is a member of the United Nations system, and is also a member of the World Trade Organization (WTO). The ITU is a leading international organization in the field of information and communications technologies, and is a key player in the global telecommunications industry.

The ITU is a member of the United Nations system, and is also a member of the World Trade Organization (WTO). The ITU is a leading international organization in the field of information and communications technologies, and is a key player in the global telecommunications industry.

The ITU is a member of the United Nations system, and is also a member of the World Trade Organization (WTO). The ITU is a leading international organization in the field of information and communications technologies, and is a key player in the global telecommunications industry.

The ITU is a member of the United Nations system, and is also a member of the World Trade Organization (WTO). The ITU is a leading international organization in the field of information and communications technologies, and is a key player in the global telecommunications industry.
