A horizontal row containing five distinct groups of four empty rectangular boxes. Each group is separated by a small gap, and there is a larger gap between the groups. These boxes are intended for users to fill in data corresponding to the cells in the adjacent grid.

The image consists of two identical horizontal rows of ten empty square boxes each. The top row is positioned above the bottom row, creating a double-line effect. This visual representation is likely used for a counting activity, such as tracing or identifying the number of boxes.
