

The diagram consists of four horizontal rows of empty rectangular boxes. The first row contains 3 boxes. The second row contains 6 boxes. The third row contains 5 boxes. The fourth row contains 4 boxes. This visual representation likely corresponds to a multiplication problem where the rows represent factors and the boxes represent individual units.

A horizontal row of 18 empty rectangles. They are divided into two distinct groups by a vertical line. The first group on the left contains 3 rectangles. The second group on the right contains 5 rectangles. A black colon symbol (:) is positioned to the right of the first group, separating it from the second.

A diagram consisting of two rows of empty rectangles. The top row contains 10 rectangles arranged horizontally, followed by a vertical colon (:) centered below them. Below the colon, there are two groups of 4 empty rectangles each, separated by a small gap.
