Изменение климата неизбежно. Но это не означает, что мы должны сидеть сложа руки и ждать, что произойдет. Мы можем предпринять конкретные шаги, чтобы снизить наш вклад в глобальное потепление и помочь остановить его.

Климатическое (или экологическое) просвещение – это процесс, который помогает людям понять, что происходит с нашим миром и как мы можем помочь остановить это.

Климатическое просвещение – это не только знания, но и действия. Мы можем помочь остановить глобальное потепление, если будем использовать возобновляемые источники энергии, сокращать выбросы парниковых газов и поддерживать экологическую политику. Мы можем помочь остановить глобальное потепление, если будем использовать возобновляемые источники энергии, сокращать выбросы парниковых газов и поддерживать экологическую политику.
