The diagram consists of two rows of 15 rectangles each. The top row contains 15 empty rectangles, and the bottom row contains 15 filled rectangles. The rectangles are arranged in three groups of 5, separated by gaps. The top row has a gap after the first 5 rectangles, and the bottom row has a gap after the first 5 rectangles. The last 5 rectangles in both rows are grouped together.

A diagram consisting of six rows of empty rectangular boxes. The first three rows each contain 10 boxes arranged in a single horizontal line. The last three rows each contain 6 boxes arranged in a single horizontal line. This visual representation corresponds to a 3x10 grid where a 3x4 rectangular section has been removed from the middle-right portion of the grid.

The diagram consists of four rows of squares. The top three rows each contain 10 squares arranged in a single horizontal row. The bottom row contains 10 squares arranged in a single horizontal row. In the top three rows, the last square of each row is shaded purple. In the bottom row, the last square is also shaded purple. This visual representation shows that out of 100 total squares, 10 are shaded purple, representing a 10% discount.
