The diagram illustrates a number system using rectangular blocks. The blocks are arranged in three rows:

- Top row: 8 blocks (4 on the left, 4 on the right).
- Middle row: 12 blocks (6 on the left, 6 on the right).
- Bottom row: 16 blocks (8 on the left, 8 on the right).

The blocks are arranged in groups, suggesting a base-10 system with a multiplier of 1000.
