The diagram consists of two rows of rectangles. The top row contains four groups of 10 rectangles each, with a total of 40 rectangles. The bottom row contains five groups of 10 rectangles each, with a total of 50 rectangles. A semicolon is positioned below the first group of the bottom row, and a single rectangle is positioned below the last group of the bottom row.

A horizontal sequence of 22 empty rectangular boxes. The boxes are arranged in three distinct groups separated by short gaps. The first group contains 10 boxes, the second group contains 4 boxes, and the third group contains 7 boxes. Each box is defined by a black outline and a white interior.

Three sets of 10 empty rectangular boxes each, arranged horizontally. The boxes are outlined in black and have a white interior. They are evenly spaced and aligned horizontally across the page.

The diagram consists of four rows of rectangles. The top two rows each contain 10 groups of 10 small rectangles. The bottom two rows each contain 4 groups of 10 small rectangles. The last group in each of the bottom two rows is shaded in orange, while the others are white. This visual representation corresponds to the mathematical calculation $100 - 4 = 96$.
