The diagram illustrates the representation of numbers from 0 to 9 using boxes. It consists of three rows:

- Row 1:** Shows the digits 0 through 9. Each digit is represented by a unique arrangement of filled and empty boxes.
- Row 2:** Shows the digits 0 through 9 again, using the same box patterns as Row 1.
- Row 3:** Shows the digits 0 through 9 again, using the same box patterns as Row 1.

This visual representation helps students understand how numbers are formed and how they relate to each other.
