

# INTERNATIONAL CONFERENCE ON MATHS - 2011

The International Conference on Mathematics 2011 is a major event in the calendar of the International Mathematical Union (IMU). It is held every four years and is the largest gathering of mathematicians from all over the world. The conference provides a unique opportunity for mathematicians to meet and discuss their work, and to share their ideas and insights. The conference is a platform for the exchange of ideas and for the advancement of mathematics. It is a chance for mathematicians to learn from each other and to work together to solve some of the most challenging problems in the field. The conference is a testament to the power of mathematics and to the importance of international collaboration in the pursuit of knowledge.

The conference is held in a beautiful location, and it is a pleasure to welcome all participants. We hope that you will have a successful and enjoyable conference. We look forward to seeing you at the conference and to working with you to make it a memorable event.
